

What Can I Do With This **Ohio State** Major?

Bachelor of Arts

Science and Technology Studies

College of Arts and Sciences

While Comparative Studies is broadly concerned with the study of culture and cultural differences, students develop particular areas of expertise. This emerging field focuses on the comparative study of the many relationships between science, technology, and culture. The concentration offers courses covering a wide range of concerns and perspectives. These include an introduction to the history and philosophy of science, the role of technology in contemporary society, cultural dimensions of medicine, relations between gender and science, historical and contemporary studies of visual culture, and the intertwining of science and technology with western and other cultures in local and global contexts.ⁱ
